

- 6 topics for groups to brainstorm ideas about (like “our local river is polluted” etc)

1

2

3

4

5

6

- Five conflict stories that groups will try to find the root causes of (brief generic type stories that everyone can relate to—like “at our last coalition meeting, two local community leaders stormed out and haven’t been back”)

3

4

5

- Two quotes for the end of the day reflections (I can’t remember the book you were referring to but you said you had some quotes from it)

1

2

- Scavenger hunt cards made relevant to watershed issues (I gave you a list that we used last year for MSL...it was a one page document...I will attach it again because if I were you, I would have buried it in papers by now!)
